

# College Search & Comparison

## Finding the Right College and Program

### UNDERSTAND TYPES OF SCHOOLS

online search: [www.SayEducate.com](http://www.SayEducate.com)

**Colleges:** generally smaller in size. They offer 4-year degree programs (BA and BS) and many 2-year Associate degrees.

**Universities:** larger institutions with specialized degrees in business, engineering, pre-med, etc. They offer 2-year, 4-year, and many graduate and professional degrees.

**Community / Junior Colleges:** a small college offering 2-year Associate degrees. Many students attend local community colleges with the intent to transfer to a larger institution to further their education.

**Vocational / Career Schools:** specialized schools of training for specialized trade jobs such as mechanics, computer technicians, medical assistants, etc. Programs may vary requiring only a few weeks to complete while others may require a year or more. Upon completion, graduates will receive a license, certificate or an Associate Degree.

### HOW TO BEGIN YOUR SEARCH

online search: [www.SayEducate.com](http://www.SayEducate.com)

Assemble a list of colleges or trade schools you'd like to attend. Meet with your school's guidance counselor to discuss your plans and to arrange important campus visits.

**There are three categories of schools you should list:**

2-3 schools that you could definitely get in

4-5 schools that you could probably get in

7-8 schools that you would like to get in

You should budget on how much you can afford for application submission. If the application submission costs for 16 or more schools may be too much, narrow your search to 3-3-3.
