

5-Point Home Construction Guide

Key Topics for Success in Home Construction — for Your Files

Step Guide

The first card for your files is the step-by-step guide to plan your home construction. Everything is at your finger tips from making an assessment - planning the design - managing the project - to moving into your home: www.SayBuild.com/guide

Shopping

Shop your home construction specs and ideas through our online shopping mall. Find items for the kitchen, bath, living areas, garage, garden and more. Everything is indexed for quick review: www.SayBuild.com/shopping

Tools

Use our tools to help make those important home construction designs and specs. Tools include estimators - spec planning - dimensions for interior and exterior calculations - step mapping - and more: www.SayBuild.com/tools

Financing

Financing your home construction is a critical component of your home construction plan. You need to find the right lender at the right price. Start your search through our national lender network. Get up to 4 offers. Use our sheet to compare and negotiate best terms: www.SayBuild.com/financing

Contractors

When you need to find a contractor for your home construction, look no further than our pre-screened national contractor database. Select area, type of contractor and read reviews from prior customers. Use our contractor evaluation sheet for help in selection: www.SayBuild.com/contractor
