<input type="checkbox"/>	Develop Good College Skills	On-Going	
<input type="checkbox"/>	Find that Summer Job	March-May	
<input type="checkbox"/>	Get Moving-to-College Checklist	March-September	

# College Search

## Finding the Right College and Program

### UNDERSTAND TYPES OF SCHOOLS

**Colleges:** generally smaller in size. They offer 4-year degree programs (BA and BS) and many 2-year Associate degrees.

**Universities:** larger institutions with specialized degrees in business, engineering, pre-med, etc. They offer 2-year, 4-year, and many graduate and professional degrees.

**Community / Junior Colleges:** a small college offering 2-year Associate degrees. Many students attend local community colleges with the intent to transfer to a larger institution to further their education.

**Online Schools:** programs and degrees that can be taken online. The advantage of these programs is that you can take classes from inside your home. These programs are great for part-time students and continuing education.

**Vocational / Career Schools:** specialized schools of training for specialized trade jobs such as mechanics, computer technicians, medical assistants, etc. Programs may vary requiring only a few weeks to complete while others may require a year or more. Upon completion, graduates will receive a license, certificate or an Associate Degree.

**Link to Begin Your College Search:** [www.SayCampusLife.com/search](http://www.SayCampusLife.com/search)

### HOW TO BEGIN YOUR SEARCH

Assemble a list of colleges or trade schools you'd like to attend. Meet with your school's guidance counselor to discuss your plans and to arrange important campus visits.

**There are three categories of schools you should list:**

2-3 schools that you could definitely get in

4-5 schools that you could probably get in

7-8 schools that you would like to get in

You should budget on how much you can afford for application submission. If the application submission costs for 16 or more schools may be too much, narrow your search to 3-3-3.

# Student Financial Aid

## WHAT YOU MIGHT LIKE TO KNOW

### Financial Guide

Our financial guide provides everything you need to fund your college needs.

- The cost of college attendance is increasing faster than most cost indices. Student and parents are now looking at other avenues to finance college other than the standard government student loan.

Your first step is to determine what amount of financing you will need.

**Link to use cost calculator:** [www.SayCampusLife.com/calc](http://www.SayCampusLife.com/calc)

- Understand the financial aid process. This requires you to file federal forms that colleges use to estimate how much financial aid the student can receive:

**For Information:** [www.SayCampusLife.com/aid](http://www.SayCampusLife.com/aid)

- Types of Student Financial Aid that are available:

#### 1: Scholarships

you want all of the FREE money you can get. True, most scholarships awards are for athletic and academic merits. But there are other scholarships for talents and affiliations. Use a national database to begin your search.

#### 2: Federal Student Loans

the most popular form of financial aid. Federal student loans are generally processed through your college. You don't have to repay these loans until after your leave or graduate from school.

#### 3: Federal PLUS Loans

federal loans for parents of undergraduate students. Parents can borrow up to the full cost of college attendance minus any financial aid awarded to the student.

#### 4: Private Student Loans

sometimes loans, scholarships, grants, and other college aid do not cover the full cost of college, including personal expenses such as a computer. Many students are using private student loans to cover the gap.

#### 5: Home Equity Loans

using the security of your home, you can finance college without restrictions.
